

Hewlett Packard Designjet Z6100 | Z6100ps

Product Overview

From posters to photos, maps to fine art, the HP Designjet Z6100 Printer series delivers exceptional print speeds with outstanding image quality and durability.¹ Plus, with an embedded spectrophotometer² and Original HP Vivera pigment inks, you'll get accurate, fade-resistant color every time you print.

Key Features:

Print at extremely high speeds. HP Double Swath technology and the first-ever HP Optical Media Advance Sensor give you a wide print swath and extremely accurate printing for great results at exceptionally high speeds.

Discover vivid color. Eight Original HP Vivera pigment inks deliver a wide color gamut with true neutral grays for outstanding image quality and detail.

Produce prints fast without sacrificing quality. HP's innovative printhead design delivers accurate, small drop sizes, enabling high-quality, high-speed printing.

Count on consistent colors. HP DreamColor Technologies provide you reliable, accurate colors every time you print regardless of fluctuating environmental conditions.

Easily add new media types and get accurate color. The built-in spectrophotometer provides breakthrough color accuracy and lets you create ICC profiles in just 20 minutes for accurate profiling and precision printer calibration.

Our Bundle:

For a complete production solution look into adding Wasatch SoftRIP for HP. Graphics and GIS files gain greater color control, performance and file flexibility. We custom install each licensed copy and provide onsite training. Media profiles for all DuraColor+ products included with each copy.
