UV-B Absorption:	100%
Adhesive:	Water-based acrylic

Item #'s

510 4mil Crystal
520 10mil Crystal

DuraLAM+ 4mil and 10mil Crystal laminates are thicker for added durability. The Crystal lams are designed for floor graphics as well as applications that need to lay flat. With a clear water-based adhesive, the laminate is high tack, fast bonding and highly discoloration resistant. Heat is not required to use the DuraLAM+ laminates but a 60*-70* heat enables faster throughput speeds.
