

## Art Unica digital media is growing.

We are pleased to announce the addition of Michael North as our National Service Manager.

Michael brings with him an extensive 9-year hardware support portfolio for all HP printing platforms. As a certified and HP trained technician, Michael's roll with Unica digital will be to offer warranty repair for all HP DesignJet printers and HP Color LaserJets and develop our service department and printer repair services. We are extremely pleased to have Michael on our staff and look forward to providing add on services to all our HP Designjet customers.

Along with warranty service we will also be offering out of warranty onsite repair for all Designjet printers and color laser printers. This time-and-material program is an huge savings over HP's service and our response time will surprise you.

For 15-years we have been the leading and most awarded HP Designjet Reseller in the Northwest. With the addition of Michael and our new Elite HP Designjet status, Unica digital has become the leader in sales and support for all HP Designjet printers.

Call us today for service rates, introductory specials or just to call in and ask Michael a service question.

HP Trade In is Back!

**Savings to \$2000.00**

Everyone who's holding onto their 1050C's or even older units now has a good reason to look into upgrading. HP just announced their latest Trade In Program offering savings up to \$2000 on certain models. Check out the NEW T-series for affordable wide format printing or the NEW Z6100 that's considered by almost everyone to be a marvel of technology, quality and speed.

If you are in the market for a new wide format printer, consider HP and Unica digital.

## Mutoh ValueJet update

We are pleased to announce the first 2 installations of Mutoh's new Hybrid ValueJet. This exciting new flatbed/roll-to-roll printer just received EPA certification for a 100% "Green" printing solution. Based on Epson's 1440dpi print head and new Mubio inks, this printer has the quality, versatility and "Green" direction everyone is looking into.

Our new **Bio-COLOR+** line of products continues to grow as we gain momentum into environmentally safe media products. We are supporting your "Green" efforts with OXO-Biodegradable media, our newest Poly products that are made from 100% recycled materials, new flat stock for flatbed printing that is 100% biodegradable and our 30% PC Laser Bond.

➔ Mutoh announces ValueJet Trade In Program. Beginning July 1st, trade in your Falcon printer and receive up to \$9000.00 in savings and incentives. Call us today for information.
